BITVALLEY

INTRODUCTION

WHAT IS BITVALLEY ?

The Bitvalley idea is to be the biggest ecosystem in Crypto. What does that mean? It means that we will develop a lot of products but all the products will use the same token which is BitV. By investing in Bitvalley you invest in all of these projects. How will we start to build this ecosystem? Well, we already have. Long story short, BitDash is our dashboard, BitValley app will be our Crypto Platform.

HOW WILL IT BENEFIT OUR TOKEN ?

As mentioned, before we will have multiple utilities for 1 token. We will benefit our token in multiple ways

1. From every withdrawal on our platform we will get 12% tax and that tax will be divided like this, 6% Team and platform cost, 4% Royalties, 2% Buyback and Burn BitV tokens.

2. From every service that our team will do (Vetting, Development, Marketing across our platforms)30% will be used to buyback and burn BitV tokens.

3. Implementing BitV as native token across all our platforms

BITVALLEY'S FIRST PRODUCT

BitDash

Every Product that we have will have their own Website, Roadmap and Whitepaper, so investors can track the progress of each product. We value our investors a lot, that's why we decided to include all the products in a single project.
We have our first product already developed which is BitDash, also our second platform BitValley app is already in progress and it will have multiple products inside.

OUR PRODUCTS

Bitdash
(Already developed)
NFT Marketplace
(Already developed)
BitValley app
(Development in Progress)

BITVALLEY

BITVALLEY MOBILE APP

the BitValley app will be our All-in-One Crypto Related Mobile App which will also have its Web based Platform. BitValley will have multiple products inside one Mobile App.

BitValley the app for begginers

It is a real struggle for real when you first start with crypto. All you know is Coin Market Cap, you look for a project with a lot of zeros and hope it will reach Bitcoin price, and you become a trillionaire. Well, it doesn't work like that. But most of the time, new investors, start with small amount of money, if they want to become very rich from that small investment, they need to find high risk high rewards projects, but if they are educated correctly those projects are not that risky anymore, profitable yes. That's why BitValley app will be the best app for beginners, it will have courses for them, so they know how to invest, how to spot a scam etc. Content creators will create content for crypto beginners, but also for old investors (there is always something new to learn in crypto).

So, what will BitValley app do is,
make it easier for investors to find project, but also educate them how to scan them, so they don't get rugged or scammed, or at least reduce the probability of you getting scammed.
We want to be that app, so when someone asks you "Hey i want to invest in crypto, but i don't know how to start", you will say "Just download BitValley app, you can learn in there everything and also find projects to invest.

Something that we mentioned before, new investors know only about Coin Market Cap, and they don't really know that most of those projects have started months ago before getting listed in there. Old investors have found their sources of how to find new projects during a long period of being in crypto, new investors struggle with that. You don't just open Telegram, type a random word and expect to find a Telegram group where new projects are shilled. Lately also old investors struggle to find newly launched projects. BitValley app will fix this in the best way possible. When we reach a certain number of downloads, a lot of project owners would like to promote their projects on our App. There will be Ads, there will be list of upcoming projects, there will be Amas hosted in our App, there will be an Open chat and many many more ways of finding new projects.

BITDASH

Bitvalley Dashboard is an all in one dashboard for our holders
All you need to do is connect your preferred wallet and voila everything pops up and at your disposal

One of major features is tracking your bitvalley tokens , rewards , upcoming rewards and allows you to claim your pending rewards with a click of a button or you can leave them to be distributed automatically once the threshold is reached, however you like you have the option

But thats not all we offer you directly on our dashboard to stake your tokens and earn up to 100% more BUSD rewards. All you have to do is stake your tokens on BitDash for a month and enjoy the rewards

Bitvalley dashboard allows you to track everything about bitvalley including

-Statistics

-Progress bar for every new task

-Status

-Upcoming plans

-New proposals

and much more

Success seems to be connected with effort.

BITVALLEY APP FEATURES

4. Crypto Listings
5. Services
6. Verified Upcoming Launches
7. Trending Projects
8. Secure Fund Storage and Swap
9. AMA's
10. Giveaways
11. Categorized Open Chat

Bitvalley – NFTs

Introduction

Bitvalley is an Ecosystem of products, as we have promised, and with the skills that we have we will always develop new things and we can always follow up the trend. We decided to develop our own Marketplace for our community and our own NFTs. All of the BitValley NFTs will be minted and sold on our own BitValley marketplace.

The BitValley NFT Marketplace will be simple and easy to use, it will be the best place to mint our own Amazing NFTs our Marketplace will not be just for us, individuals or projects can mint their NFTs there as well, the price to mint is the most affordable price on the Market.

The BitValley NFTs will be devided into categories

In total there will be 4 categories of our own native BitValley NFTs. Each of those categories will be unique both in design and look also on their benefits that come along with owning any of them. Yes our native NFTs will all have benefits, that's why we decided to divide them into categories, which means each category will have it's own benefits. And the best part we have found a way to link each NFT category to benefit eachother.

OUR TEAM

We are based on Europe.
We are very familiar with crypto space , we have 4 years of experience on blokchains.
We know what it takes to make a crypto project successful, so bear with us and enjoy how a real project feels like.

So lets talk about our team

Listing / 1BNB = 10.000.000 BitV

BITVALLEY

OUR MISSION

We think big, take smart risks, and do things that have never been done before. We are not afraid to make tough choices that align with our long-term objectives .
We know that it always seems

OWNERSHIP AND BE DECISIVE

We are all empowered to take initiative, make the right decisions, and act as owners. We are committed to protecting our company culture and seek to bring in the best people we've ever worked with.We aim to surprise and inspire with the quality and speed of our decision-making.

STAY DETERMINED

We never give up, carry each other through hard times, and recognise grit in our colleagues.
We understand that building a world-changing company is a monumental task, but we love every minute of it .
We will celebrate milestones together, recharge, and get back to work.
Our mission is clear , number one company in the crypto space .

We don't seek the limelight and focus on doing what is best for the company and the users .We leave our egos at the door and learn from our mistakes, knowing that we are always stronger as a team. We think twice before spending, but we are aggressive when it comes to investing in what matters.

As you can see our mission is clear , transparency , honesty , hardwork and success .

BITVALLEY

CONCLUSION

DETERMINED TO SUCCED

As you can see we are determined to succeed , there is only one path on our sight and thats success .
We are highly motivated , we have the neccesary experience , we have an amazing and skillfull team .
We will never stop working , this is our lifetime project .
We are glad to have you onboard with us and lets grind together our path to success .

Much love and respect from BitValley Team
